

FDC-RK0903U

UPS rails 3U rack kit

Customizable rackmount solution designed to accommodate heavy UPS systems in EIA standard four-post racks or rack enclosures.

The kit includes two mounting rails with adjustable depths of up to 35.6in. Its heavy-duty steel construction supports 17.5in wide power protection, networking equipment and devices weighing up to 265lb.

The L-brackets mount to the outside edges of the rack's vertical mounting rails. Deployment is quick and easy by a single user with the included mounting hardware, which is also compatible with square-hole racks. Manufactured to specifications with superior materials, the kit ensures a reliable performance and long-term use in your installation.

Highlights

- The perfect solution for adding shelving to 4-post racks or cabinets
- Occupies 3U of rack spaces
- Fits most standard 19in rackmount equipment
- Adjustable depth of up to 35.6in
- 265lb maximum weight capacity
- Sturdy steel construction
- Includes rack-attachment hardware
