

FSP-4402USB-C

4-Italian outlet surge protector with 4-USB charging ports

The convenience of charging and connecting all your devices in one spot is now a reality with the new Forza FSP-4402USB-C. This versatile charging and surge suppression solution offers multiple levels of protection for your valuable electronics. Equipped with four USB ports, it is perfect for keeping tablets, smartphones and other rechargeable mobile devices ready to use. The LED lights visually indicate that the unit is both, grounded and protected for peace of mind. Built-in rubberized holders prevent the screen of your device from being scratched, while keeping it at an angle for easy view of the display. Innovative and functional, now you can convert a single electrical outlet into a multi-device charging center for a clutter-free, tidy and organized desktop.

Highlights

- Desktop power and charging station in an innovative and compact design
- Grounds AC power through 4 protected Italian outlets and 4 universal USB ports
- Short-circuit and surge protection of 1250 joules safeguards your valuable electronics while charging
- Integrated rubberized phone and tablet holders keep connected devices safe
- Fire-retardant ABS plastic housing
- Lifetime warranty
