

RSO-06TUSB

6-outlet surge protector with USB ports

The Forza RSO-06TUSB Surge Protector is the perfect solution to safeguard your sensitive electronics, including home and office devices from power surges and spikes that can eventually destroy or degrade the performance and reliability of your expensive equipment. Featuring uniquely designed rotating sockets, and integrated USB charging ports, it offers added versatility and convenience when plugging multiple devices in tight spaces or hard-to-reach areas. The RSO-06TUSB also comes with a heavy-duty cord and perfect-fit outlets, which prevent plugs from becoming loose or slipping off the socket accidentally.

Highlights

- Optimized for home and office equipment
- Grounds AC power through 6 protected outlets and 2 USB ports
- The AC outlets can be rotated 180 degrees in either direction for easy access or to accommodate bulky chargers or adapters
- The USB ports deliver up to 3.4 amps of optimal charging power for keeping tablets, smartphones and other electronics always ready to use
- 1080-joules of advanced surge protection, with maximum spike current of 72,000A
- Metal Oxide Varistor technology shields against lightning strikes and sudden surges
- EMI/RFI filtering blocks unwanted noise in your power supply, improving the performance and durability of your connected gear
- User-resettable circuit breaker allows easy recovery from overloads (15A)
- Protection indicator and ground connection indicator LED lights
- Keyholes for easy mounting to a wall, under a cabinet, countertop or anywhere you need it
- Optimized for home and office equipment
- Heavy-duty 14 AWG power cord
- Lifetime warranty

PROTECTION LEVEL **2** + Breaker Surge Protector

110VAC

6 | **2**
protected outlets | USB charging ports

ideal for

MPN	RSO-06TUSB
Input	
Voltage	120V
Amps	15A
Frequency	50/60Hz
Watts	1800W
AC plug type	NEMA 5-15P
AC plug style	90 degrees
Output	
Outlet type	Six (6) NEMA 5-15R
Outlet style	Rotating sockets up to 180 degrees
USB charging port	Two (2) USB-A 5V/3.4A
Surge protection	
Overload protection	Included
Surge suppression rating	1080J
Maximum spike current	72,000A
EMI/RFI filtration	40dB
Physical appearance	
Switch	Resettable on/off rocker switch with circuit breaker
Housing	Flame retardant plastic
Color	White
Cord length	6ft
Wire gauge	14 AWG
Dimensions	13x2x2in
Weight	1.65lb
Additional information	
Warranty	Lifetime
